## TESTIMONIES

The Duranno Father School is a MUST for every father. So much was learnt in 3 days. It beats 30 years of trial and error.

JACK TAN

I'm glad I've taken and completed this course. With the knowledge I've gained, I feel more confident and know that I can make better choices in living as a husband, father and grandfather.

DANIEL LOO

It has change my whole outlook about the spiritual aspect of a father's role in the family unit.

LEE K H

# WHY Father School?

Father School was established by Duranno in October 1995, in Seoul, Korea, in response to the growing national epidemic of abusive, ineffective and absentee fathers. Duranno Father School was founded on the premise that when the father stands firmly as the head of the household, society will also stand firm, thus creating a firm and healthy world. "Duranno" is the Korean way of pronouncing Tyrannus (a lecture hall) which is found in Acts 19:9.

Father School is a 3 day program that instructs fathers on their role as the head of the family. Fathers will discover their position in the family unit and learn what it means to be the family's authoritative head. In the larger context, Father School is also a social movement that fosters a healthy family culture. Those who attend are encouraged to become diligent contributors to their respective vocations as well as society at large. Moreover, participants are also challenged to take the lead in changing the world around them. Finally, and most importantly, fathers are encouraged to pass on these family values to their children so that they might in turn become men and women of integrity.

Duranno Father School pursues the biblical image of the father, helps fathers to recover their lost authority in families, corrects the wrongfully exercised authority of fathers, and returns fathers to their noble position in the family. Duranno Father School is a movement that challenges men to change society and the world by first and foremost, being good fathers in the home.
